

# We Got What It Takes

C#m H  
I look in the mirror

C#m H  
I think I did good

C#m H  
I did more than I

C#m H  
Ever thought I could

What was in my way  
Was only in my mind  
If you think you can  
You will see you're right

A A/G#  
Oh, I hardly recognize myself

F#m  
Thinking I could do all that

H  
Hey hey

E  
Everything is easy

C#m  
When you know how to do it

A  
I'll go anywhere

H  
The adventure is out there

E  
If you lose your way

C#m  
Make a few mistakes

A  
We can get it right

H  
We just have to try

E  
Never underestimate

C#m  
Anyone else or yourself

A H  
Never underestimate

H. C#m  
We got what it takes

You said I could do it  
And you taught me how  
We had such a good time  
It's what it's all about

A little at a time  
We built a tower  
So we could touch the sky  
And see what's all around

Oh even if it sometimes feels  
Like the stars are out of reach  
Hey hey

Everything is easy...

Solo: F#m-G#m x2

F#m  
Learning by doing

C#m  
We're doing it together

F#m  
Impress each other

H  
And surprise yourself

Everything is easy...
